The City of Spencer discourages the partial zoning of property. However, if the owner requests a rezoning of this nature, then he/she is required to have a survey plat prepared of the property that shows the boundary and area that is being considered for rezoning. A survey plat is not required if the area of the property requested for rezoning is the same zone that already exists for the rest of the property.

JUSTIFICATION FOR CHANGE OF ZONING:

In its recommendation to the Spencer Board of Mayor and Alderpersons, the Planning Commission will consider the following items:

- 1) Was an error made in the original zoning of the property?
- 2) Have the characteristics of the area changed to the extent that a change in the zoning would be warranted?
- 3) How would the requested change affect the surrounding area?
- 4) Is the area large enough to be zoned on its own or is it abutting the same zone as requested?

JUSTIFY YOUR ZONING REQUEST BASED ON THE ITEMS ABOVE (The Planning Commission will look only at what is allowed in the zone requested, <u>not</u> what you plan to do with the property. Once a zone is changed, all uses in that zone are allowed for that change.) (If you need more space, attach another page):
